

Vernier Spectrometer

Powered by Ocean Optics™

The Vernier Spectrometer, powered by Ocean Optics™ technology, connects directly to your computer with a standard USB cable. It is a fully functioning visible light spectrophotometer giving precise measurements instantly over a range of 380–950 nm.

\$1999 Order Code
V-SPEC

Accessories

We sell optical fiber cables to use a spectrometer for emission spectrum studies and also replacement cuvettes.

400 μm diameter VIS-NIR optical fiber	VIS-NIR	\$120
400 μm diameter UV-VIS optical fiber	UV-VIS	\$120
